

B. 3.

I have engaged Ingham on very moderate terms for a year to paint, and generally to superintend the whole Public Buildings, that is when a state comes off or any thing else going may be well replace them & to be generally useful in the way of completing all repairs of manses Churches, Schools & may be painting some a great deal - he cannot ^{paint} do the work about the Lodge - all this will be a great saving to the estate - he also repairs the road Goals. The hole is to be done for £25 - and he lives in the small house opposite the front of the Church.

The High people have made great preparation for the early Harvest getting on their Craft. A crew of them went all the way to see W for a boat I advanced them £35. to be paid at the end of J. 12. & 18 ms. with interest by equal instalments - The High people are the most active in this way. but a desire to improve their condition is manifest in the whole of them with few exceptions. Please excuse my haste.
